PROGRAM DESCRIPTION

Depending on the academic advantages and training experience of the School of Finance, The MSF program offers oversea students — who are interested in understanding China’s financial conditions and problems but do not yet have a good basis of Chinese language — an opportunity to comprehensively understand Chinese culture, economy and finance. The program completely covers China’s financial industry including banking, securities and insurance.

The objectives

- Comprehensively understanding of Chinese culture;
- Comprehensively understanding of institutional basis, the policy system, institutions and organizations systems, business model and the direction of development with respect to Chinese economy and finance;
- Communication skills with China’s financial industry;
- Research skill in Chinese economy and finance;
- Practical ability to engage in services relative to China’s financial industry.

Characteristics of the MSF program:

- Courses of the program will be lectured by professors with overseas study experience, government officials and industry experts in English. The language of instruction and administration in the Master of Science in China Finance Program is English.
- The program is full-time last for two years. After completing curriculum credits during the first one and a half year's full-time study, students should have an internship and finish master thesis. Students who successful pass the thesis will receive the Master of Finance degree, which is recognized by the Ministry of Education of China.
- Each Student in the program works directly with a Rennmin University faculty member, who is responsible for assisting the student in pursuit of his/her area of particular interest.
- The program strengthens the practice links and pay attention to the cultivation of professional ethics.
