

# MASTER OF SCIENCE IN FINANCE

(MSF)

## Program Description

### About MSF Program

• The Master of Science in Finance (MSF) International Program was established in September 2010 and is running well and highly reviewed. The program depends on the academic advantages and training experience of the School of Finance, and offers oversea students-who are interested in understanding China's financial conditions and problems but have not yet had a good basis of Chinese language - an opportunity to comprehensively understand Chinese culture, economy and finance. The program completely covers China's financial industry including banking, securities and insurance.

### Mode of Study Full-time (2 years)

### Objectives of MSF Program

- Comprehensively understanding of Chinese culture;
- Comprehensively understanding of institutional basis, the policy system, institutions and organizations systems, business model and the direction of development with respect to Chinese economy and finance;
- Communication skills with China's financial industry;
- Research skill in Chinese economy and finance;
- Practical ability to engage in services relative to China's financial industry.

### Characteristics of the MSF program:

- Courses of the program will be lectured in English by professors with overseas study and teaching experience, government officials and industry experts. The language of instruction and administration in the MSF Program is English.
- Each Student in the program works directly with a Renmin University faculty member, who is responsible for assisting the student in pursuit of his/her area of particular interest.
- The program strengthens student's practical skills and pays attention to the cultivation of professional ethics.

### Training directions of the program

- Financial Theory and Policy
- Banking Management
- Security Investment
- International Finance
